Tree Andre, resident, requested the Council take action to create or modify the land development codes that would establish a code of conduct for long-term rentals similar to LDC Section 34-23-93 that dealt with the code of conduct for short-term rentals. She discussed her opinion that this would then allow for consequences to landlords who take no action for disruptive or disrespectful tenants. She reviewed Florida statutes as it pertained to disruptive/disrespectful tenants who violate Chapter 8-77.03 and the potential second degree misdemeanor charge. She noted that the majority of property owners on the Beach were responsible; however, there were some irresponsible absentee owners.

Roy Hinkleman, resident, President of the Laguna Shores Home Owners Association, thanked the Town Council, Town Manager, and staff for making the dredging project a reality. He reported he spoke with the Town Manager about his concern regarding changing the site to the western site; however, he had not been able to meet with the Town Manager about that matter yet.

Town Clerk Mayher explained that the Council would need to discuss and decide how they would like to accomplish filling the Council vacancy; and noted the candidate must be a Town resident and a registered voter, and shall have resided within the corporate limits of the municipality for a minimum of one year prior to qualifying for election.

He did point out that the underground exhibit required the contractor to come back and re-do the process on the floor due to some type of staining and the results turned out well. He reported the original contractor for

the underground exhibit had left the job site prior to completion, and the Town withheld funds which resulted in court action and mediation which concluded with a reduction of payment from approximately \$27,000 to \$14,250. He added that the project still remained on budget even with the settlement.

Vice Mayor Raymond asked for an update on the parking issues associated with the Mound House.
